

Women in Math (WIM) Mentorship Initiative

So, you've declared a major in mathematics. Congratulations and welcome to the fold! You have chosen a fascinating and rewarding field of study that can lead to many unique opportunities. We, the Women in Mathematics (WIM) at Northwestern University, would like to help you explore your potential academic and career choices.

WIM consists of the female graduate students, post docs, lecturers and professors of NU's math department. Every year, we host at least one event open to all female math majors, and with this mentorship initiative we aim to provide you with more frequent opportunities to interact with other women in math. Whether you would prefer to meet regularly over coffee or just chat by email, your mentor would be a resource for you.

Please take the time to fill in the bottom portion of this form. By doing so, you are under no obligation to participate, but we will keep you informed about various activities and opportunities if you so choose. We will use this information to figure out how to best serve you and, if you so desire, to find the most compatible mentor for you.

Name:

Email:

Expected Graduation Date:

Do you currently have a mentor who is helpful in your mathematical choices?

Why did you choose a math major?

Please list the 300 level math courses you have taken. Optional: Circle your favorite and put a line through your least favorite.

Check as many as apply:

- I would like to have a WIM mentor
- I would like to hear about WIM events that might interest me.
- I would like to receive emails about research opportunities, fellowships, etc.

What else would you like WIM to provide?

Thank you for the information! We look forward to meeting you.

Sincerely,

The Women in Math

**PLEASE RETURN COMPLETED FORM TO Anna Marie Bohmann.
Completed forms may be emailed to her at bohmann@math.northwestern.edu**
